Pediatric emergency care: how research and practice interact

Programme

Chair: Rianne Oostenbrink

11.30 - 12.00 Coffee and small lunch

12.00 - 12.10 Welcome and introduction
Henriette Moll

12.10 - 12.20 Early warning signs in pediatric emergency care
Joany Zachariasse

12.20 - 13.00 Pediatric Emergency Medicine
Ian Maconochie

13.00 - 13.40 The LabScore in febrile children: from development to implementation
Alain Gervaix

13.40 - 13.55 Managing the febrile child
Ruud Nijman

13.55 - 14.15 Safety netting: How, when, what?
Evelien Kerkhof

14.15 - 14.30 Conclusions, Gaps in pediatric emergency medicine in the Netherlands
Rianne Oostenbrink

December 3 2014
Invitation

We are pleased to invite you for the symposium ‘Pediatric emergency care: how research and practice interact’. Pediatric emergency care deals with the child at risk for serious illness, although a substantial part have minor conditions, mostly with self limiting courses. It deals with important topics, such as *triage* of children in order to recognize the most urgent ones and manage large patient flows safely, *decision support*, and strategies to guarantee safe discharge, the so-called *safety netting*. It is in particular in this area that clinical problems give input for research questions and ask for implementation of study results. This symposium will introduce Pediatric Emergency Care, a long existing speciality in the United Kingdom, and discuss from a clinical perspective the state of art on early warning scores, the approach to the febrile child and safetynetting. Following the symposium we invite you to attend the thesis defense ‘*Improving diagnostic strategies for predicting serious bacterial infections in paediatric emergency care*’ by Ruud G. Nijman.

Looking forward to meet you,

*Rianne Oostenbrink & Henriette Moll*

---

**SPEAKERS**

Alain Gervaix, MD, PhD  
*Paediatrician/infectiologist, Children’s Hospital, University Hospitals of Geneva, Switzerland*

Evelien Kerkhof, MD  
*Pediatrician in training and PhD student, ErasmusMC-Sophia, Rotterdam*

Ian K. Maconochie, MD, PhD  
*Paediatrician, St. Mary’s Hospital, London, United Kingdom*

Henriette A. Moll, MD, PhD  
*Paediatrician, ErasmusMC-Sophia, Rotterdam*

Ruud G. Nijman, MD, PhD student  
*ErasmusMC-Sophia, Rotterdam; Research fellow St Marys- Imperial College NHS foundation trust, London, United Kingdom*

Rianne Oostenbrink MD, PhD  
*Pediatrician, ErasmusMC-Sophia, Rotterdam*

Joany M. Zachariasse, MD, PhD student  
*ErasmusMC-Sophia, Rotterdam*

**ACCREDITATION**

Accredition by NVK

**REGISTRATION**

[www.sophiakindergeneeskunde.nl](http://www.sophiakindergeneeskunde.nl)  
Participation is free

**CONTACT**

Secretariat Pediatrics: secretariaatalkg@erasmusmc.nl

**LOCATION**

Sophia-bios (SP3417) - 3rd floor  
Erasmus MC  
Entrance: Wytemaweg 80, Rotterdam
